

If you are accepted into the Business Development Training course, you will need to bring the following items to the first day of class:

1. Income verification for each member of your household earning income (see list below).
2. We accept credit/debit cards, checks, or cash totaling \$50, \$100, or \$200 for tuition and cost of materials. Your fee is based on your household income and must be verified at the first class. Our fees are explained below.

Acceptable Forms of Income Verification

Ventures verifies clients' income to ensure that we serve our mission to assist people with low incomes to start small businesses. Please provide proof of income for each member of your household earning income. You may provide any of the following as proof:

- Three months of pay stubs from employment
- IRS tax form 1040
- Letters of Entitlement from any form of public assistance (Food Stamps, SSI, TANF, Refugee Assistance Grants, Unemployment Receipts, etc.)

2017 Sliding Scale Fees

Ventures' program costs \$2,000 per person. However, thanks to generous sponsors who believe in our mission, students only pay \$50, \$100, or \$200 depending on income. Your fee will be determined based on final verification of your income.
